**E**xpertise in FAA's Acquisition Management System (AMS)

## CORPORATE OVERVIEW

V-Project Management Consulting (V-PMC), LLC is a certified woman-owned, minority-owned, and disadvantaged-owned small business founded in 2009 to provide complete Project Management Life Cycle (PMLC) services to federal, state, local, and commercial clients in the Greater Baltimore-Washington DC Metro Areas. V-PMC's core services include Project Management, Acquisition Management, and System Development Life Cycle services. V-PMC is committed to hiring, developing, and retaining certified Project Management Professionals (PMPs) and Consultants who are best-in-class and placing them to work with clients to provide complete PMLC services. V-PMC supports government agencies in managing Acquisition and System Development Programs and Projects more efficiently and effectively by using Project Management best practices from the Project Management Institute (PMI). V-PMC's PMP-certified Project Managers and Consultants work with clients to **balance constraints of time, cost, scope, resources, quality, and risk** to achieve benefits, business goals, and initiatives.

Other Weather  
Systems Experience

**E** xperience on FAA  
NEXTGEN Projects &  
with Aviation Weather  
Office

**R** eliable, Dependable,  
& Knowledgeable  
SDLC SMEs

### ABOUT OUR PRESIDENT & CEO

Varetta Huggins, PMP has been managing V-PMC since 2009. Her expertise includes about 20 years of Program/Project Management, Acquisition Management, System Development, Accounting & Banking, and Administration. **Ms. Huggins has about 10 years of expertise in NOAA NWS NEXRAD, AWIPS, GOES, HazCollect, & Tsunami Systems and FAA Aviation Weather, NEXTGEN systems, & Technical Training.** Ms. Huggins was one of the first consultants hired for the current AWIPS contract awarded in 2005 and because of her System Engineering knowledge and prior NWS experience, she was able to learn all of the phases of the AWIPS SDLC from the incumbent and train most of the Contractor Transition Team. Ms. Huggins managed numerous AWIPS Releases which included transition of the Message Handling System from X.400 to SMTP; Daylight Savings Time Changes; Key West Locator Name Change; and Emergency Software and System Releases. During these projects she managed teams of over 60 members including staff at the NCF, WFOs, RFCs, Headquarters, National Centers, and Test sites. During her Tsunami work, she visited the TWCs in Alaska and Hawaii and analyzed the systems to develop an IT Modernization Plan. **Ms. Huggins is willing to use her knowledge & expertise for the next AWIPS bid.**
